HELP GET NON-U.F.W. GRAPES OUT OF A & P

FARM WORKERS ASK YOU NOT TO SHOP AT A&P STORES UNTIL A&P AGREES TO STOP SELLING SCAB GRAPES ! ! !

Thousands of farmworkers are on strike in the grape vineyards of southern California.

A&P stores are selling grapes from the struck fields of the big growers.

The grape strikers ask you to boycott all A&P stores until A&P agrees either to sell no grapes or only UFW grapes.

In 1968, Seattle-Tacoma A&P agreed not to handle scab grapes. But the new district manager of A&P refused to follow that practice.

Farmworkers won grape contracts in 1970 after 5 years of strike and boycott. This spring those contracts were raided by the Teamsters who signed sweetheart deals with most of the big growers. Evidently supermarket giants like Safeway and A&P are taking part in the effort to crush the farm workers union. But the UFW and millions of supporters willnot let this happen!

In spite of the slayings of 2 unarmed Farm Worker pickets this year, the Union continues its non-violent policy. Your cooperation in the removal of scab grapes from supermarkets is the surest and quickest way to achieve justice for harvest workers and their families.
